

INDEX TO PROCEEDINGS

THE INSTITUTION OF PRODUCTION  
ENGINEERS.

Proceedings of the Session.

VOL. IX, 1929-30.

	Page.
Progress in Manufacturing Practice. J. H. Garnett ... ...	1
The Proper Use and Application of Tool Steels. J. A. Hopkinson ...	17
Electrical Driving of Machine Tools. David Nicholson ...	29
Boilers—Old and New. John K. Muir ... ...	45
Sixth Annual Dinner ... ...	58
Annual General Meeting and President's Address ...	65
Moulds for Synthetic and other Compounds. H. T. Richardson ...	75
Spur Gearing. G. R. Marsh ... ...	109
Opening of the Luton, Bedford and District Section ...	125
Annual Report for 1929-30 ...	128
Balance Sheet as at 30th June, 1930 ...	132
Income and Expenditure Account ...	134
The Production of Drop Stampings. P. O. Rowley ...	137
Costing as an Aid to Production. P. H. Lightbody ...	148
A Review of Recently Introduced Aluminium Alloys. W. C. Devereux	169
Electric Heat Treatment Furnaces. A. G. Lobley ...	186
Gauging and Measuring Methods. W. H. Carter ...	201
The Production Engineer and his Problems. W. G. Grocock ...	214
The Manufacture of Cycle and Motor Cycle Chains. C. J. Potts ...	237
Recent Developments in Engineering Materials. T. H. Turner ...	248
The Relation of Monetary Policy to Production. R. G. Hawtrey ...	263
The Relation of Production to Consumption. A. J. Hancock ...	271
Low-voltage Electric Welding. T. F. Holden ... ...	281
